## Congratulations to our President!

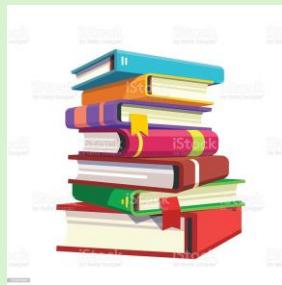

Our president, Judit Roland, has won this year's Australian Government Individual Landcarer award for her great work over many years in helping regenerate our mountain's rainforests. As the award statement notes, "Judit's passion and commitment to Landcare is both tireless and infectious. An inspirational leader, Judit has successfully brought together individuals from all levels of government, business and the community to work cooperatively on multiple projects across Tamborine Mountain for 20+ years. Her ability to network, connect and positively inspire individuals from school children to senior bureaucrats is a rare skill that underlies the significant ongoing success of Tamborine Mountain Landcare."

Congratulations, Judy! You've richly deserved this award.

## Our Annual Mega Book Sale: Grab a Bag of Bargains for \$5

**Sunday 9 JUNE 8am – 1pm**

**Landcare Shed, 175 Hartley Rd**

Get in early for the best selection of titles from our huge array of quality fiction and non-fiction books. Bring a bag (or two) to fill.

Our wildly popular annual sales enable us to sell the large number of donated books that we can't fit in to our lovely little Piccabeen Bookshop. All the profits go towards our work of restoring the mountain's forests.

Native plants will also be on sale for \$2.50 each.

## **The Value of Conservation: Educating our Local Students**

Recently, Year 4 students from Tamborine Mountain College visited Esme Lahey Environmental Park, accompanied by teachers and parents. Guided by our president, Judy Roland, they took part in various activities relating to the ecosystems of our subtropical rainforest, including the huge trees that form the canopy of this little jewel of a park.

This park is well worth a visit, with its flat, easy-walking paths. You can enter from Licuala Drive or Esme Street.

Twenty-five years ago, it was a swampy weed infested area. Local residents worked to regenerate it. With the assistance of Scenic Rim Regional Council, and TM Landcare volunteers, it is now a wonderful example of what we can do to preserve our precious patches of rainforest. And if you visit at dusk in September, you can enjoy the magic of fireflies!
